Minutes of DeSoto County Press Association

The meeting was called to order on Friday, Oct. 27th ult., by President A. P. Jordan, who stated the object of the meeting. He called attention to the recommendation of the State Association that weekly papers increase their subscription rates from \$1.50 to \$2.00 per year.

The question was discussed from various standpoints and was the sentiment of all present that something should be done to curtail the loss now sustained by most of the weeklies in charging \$1.50 per year at the prices which they are now forced to pay for news print paper.

It was suggested that if the weekly newspapers should adopt a strictly cash basis, so that they would receive the full amount if each subscription, instead of losing from 15 to 25 per cent of their subscription accounts in bad debts, it would then be unnecessary to raise the price. The following resolution was read and adopted:

"Whereas, The extreme high price which we are forced to pay for news print paper renders it necessary for weekly newspapers to either increase their present subscription rates, or else adopt a system to prevent any loss on subscription accounts, and

"Whereas, We are opposed to the principle of allowing the 'dead-beat' to force an increased price upon people who pay their just debts; therefore, be it

"Resolved, That from and after Jan. 1st, 1917, the members of the DeSoto County Press Association will mail no papers to subscribers who have not paid their subscriptions in advance.

"Resolved, That those who really want the paper and intend to pay for it will welcome the opportunity to pay in advance, rather than stand a further increase in the subscription price, while those who might shirk the obligation will be weeded out, and both the newspaper and the prompt subscriber will profit thereby."

Attention was called to the fact that certain advertising agencies doing business with members of this Association were not meeting their bills promptly, and the following resolutions respecting them were presented and adopted:

"Whereas, The DeSoto County Press Association has been contracting space with certain advertising agencies who have failed to pay their bills, some of them be-

Dr. Hedrick Died Tuesday

Dr. C. V. L. Hedrick died in a sanitarium at Arcadia on Tuesday afternoon. Some time previously, he had undergone an operation for appendicitis, from which he was apparently recovering and he went to his home at Floridonia, a few miles north of Punta Gorda. Tuesday morning, his condition became serious and he was hurried to the sanitarium, where he died as stated. He came here from Kansas City, Mo., several years ago and was in charge of the land company's interests at Floridonia. During the time he lived in this locality, he won the respect and esteem of all who became acquainted with him, and he had a number of warm friends in Punta Gorda. He had traveled much and was an extraordinarily well informed man.

Before coming here, he had attained eminence as a physician and surgeon, from which profession he had retired. In addition to his intellectual accomplishments, he was a thoroughly upright gentleman and possessed a most amiable disposition. His

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
